WORK

BlueBerryX, Event Hollow, UX Designer

Aug 2017–Present · Brooklyn NY

Working with early stage digital startups, I have directed redesigns for existing brand experiences that incorporate complex user research methodologies to elucidate the key indicators driving customer engagement. Working on cross-functional teams, I negotaites with stakeholders to drive meaningful design changes that consistently improve conversion rates for their product.

Nootbot, UX Researcher

Dec 2016–Aug 2017 · Brooklyn, NY

Conducted user-research for a chat-bot based web application. Insights drove the development of a ranking and suggestions system for in-conversation product suggestions and batching options.

Luca Dellaverson Studio, Studio Assistant

Nov 2015–Dec 2016 · Brooklyn, NY

Worked alongside artist developing large scale (~8'x10') glass enamel sculptures. Work addressed the relationship between artist and society through the framework of continental philosophy.

Memorial Sloan–Kettering Cancer Center, Sr. Research Associate

Oct 2014–Nov 2015 · New York, NY

As a part of a small, interdisciplinary team, implemented a translational stem cell protocol for the treatment of Parkinson's Disease. We employed complex behavioral and immunohistochemical methods to determine the efficacy of stem cell grafts incorporation within a hemi-Parkinsonian PD model.

EDUCATION

General Assembly, UX Certificate

2018 · New York City, NY, USA

California College of the Arts, Industrial Dsg & Painting

2013–2014 · San Francisco, CA, USA

Boston University, BA in Neuroscience
